

are the subject of an Amendment which is being filed in applicants' application SN 467,786 filed February 18, 1983.

Applicants' AMENDMENT filed April 18, 1983 in the present application, page 6, lines 9-10 states that the four compounds set forth in original Claim 5 are all compounds in which R^3 is an alkoxy group. This statement was the result of an inadvertent error. Two of the four compounds set forth in original Claim 5 are the compounds of Claims 21 and 22 cancelled by the present Amendment. These are claims wherein R^3 is an alkyl group rather than an alkoxy group. The other two compounds set forth in original Claim 5 which correspond to the compounds of Claims 23 and 24 in the present application are compounds wherein R^3 is an alkoxy group.

Respectfully submitted,

HERBERT GOODMAN
